MISSION		Need to concentrate on our mission and stop focusing on building.
MISSION	AGING POPULATION	We need to look ahead to aging population, as in aging in place in homes, can we do this with our church
MISSION	BEYOND WORSHIP	Support for ideas in which people & families would WANT to come to the church or church campus NOT JUST during services.
MISSION	BUILD FOR MISSION	Build to meet our mission. So we need to consider our mission and which aspects of that mission are most important – this will drive the direction of our efforts with new construction or renovations.
MISSION	BUILDING FOR OTHERS	Building for those “not in the room” children, and people who haven’t found us.
MISSION	CHILDREN	Why are we doing this—what do we want to be doing and what are the facilities that will help us do it? If you want to grow, then children’s programs are important.
MISSION	COMMUNITY	Any new facilities, growth, should reflect our need to interface with the community rather than operate independently from the larger community in which WUU is based.
MISSION	COMMUNITY	By improving our campus, we can enhance the whole community beyond just WUU
MISSION	COMMUNITY	How do we service the immediate community? A social hall, bingo night, helps to let the community know we are there.

MISSION	COMMUNITY	I am more and more aware of our function in the community as place where liberal ideas can be discussed. I see WUU as a potential center for that kind of activity. Not just UU members would come here but other people to do something with liberal spirituality. I love the acceptance, the openness of UU philosophy--all are worthy, all are welcome. Do an expansion so there's not a boundary between our doors and Williamsburg--people could come and go. Being bright and spreading the light.
MISSION	COMMUNITY	Important to reach out to community—I value it, do participate when the opportunity is handed to me—but it's too late for us to find space downtown. So question is how do we accomplish that (reaching out to community).
MISSION	COMMUNITY	Like that we are interacting with other religious communities, like homeless,
MISSION	COMMUNITY	Need for space that could be used to invite different members of the community. E.g., housing homeless during winter; no privacy or partitioning.
MISSION	COMMUNITY	Need to go into the community or bring them to us
MISSION	COMMUNITY	Physical outside improved not just for our congregation but for the larger community.
MISSION	DIVERSITY OF MEMBERSHIP	We as people are not representative of the wider community. We have little representation from Latino, African Americans, and other groups. In terms of building our future, beyond space needs, how do we increase the diversity of our membership?
MISSION	FAMILIES	Need to take care of our families (kids and groups like our choir)
MISSION	GROWTH	If we build it and they come our voice will be louder in the community.
MISSION	GROWTH	Need to know how new space would serve the congregation beyond current members
MISSION	GROWTH	Take seriously the need to grow, meet our own needs, and reach out.
MISSION	GROWTH	We have a lot of things people may be searching for so we might grow.

MISSION	INCLUSIVE	So grateful for Jennifer’s emphasis on trying to get us to be inclusive—want to promote and support larger community coming to us (at other times) and on Sundays as well.
MISSION	KITCHEN	Recognize the role of food and kitchen. Community Chapel has a chef—they serve breakfasts and gatherings of all kinds. Food is a big item in church life—if there isn’t enough kitchen to support fellowship, it’s felt. A kitchen means something and has a life of its own. Serve as a (mentor?) of black church—there, it’s all about eating. Their fellowship is built around food. They do it well and do a lot of it.
MISSION	KITCHEN	We all enjoy coming together over food and that has to continue to be an important part (of future plans). Kitchen, social space for eating. Examples of other churches who value fellowship over food.
MISSION	LAUNCH OTHER MINISTRIES	We have a role to play- one of our ministries to launch others of like mind
MISSION	LOCATION	Our real mission- is our location the best way to serve the community? Without a car people can’t get to us
MISSION	OTHERS	Reinforce about building for those who are not here now—children are going to become adults. Whatever we do it’s purpose should be to make ourselves known so that others can enjoy what we enjoy.
MISSION	PHASED	Do everything that is directly connected to our mission for this capital campaign (child care is not in our mission). Been in several feasibility studies, it’s pretty tough out there—the realist in me says we need a phased approach that is very focused and that we can accommodate financially.
MISSION	RELIGIOUS	Want to be perceived as a religious community, look to other places for intellectual stimulation
MISSION	SERVE LARGER COMMUNITY	What we do here should not only enhance US but enhance the community. So whatever changes we make should be considered in those terms. Not just will it serve our needs, but will it enable us to serve the needs of the larger community?

MISSION	SERVE LARGER COMMUNITY	Who we are: beyond space, how will the space be used to interface with the larger community?
MISSION	SIZE	Arlington church is too big for example but we need to be welcoming
MISSION	SMALL GROUPS	Love the many smaller group things going on here.
MISSION	SOCIAL JUSTICE	Consider using Parker for homeless.
MISSION	SOCIAL JUSTICE	Need space in an out building that could be used for social justice projects.
MISSION	SOCIAL JUSTICE	Beyond the physical plant there are big issues in our community, like very poor neighbors who live next to the church. There are a lot of poor people in Williamsburg --focus on our community.
MISSION	SOCIAL JUSTICE	General, outreach to the community, our space limits us—soup kitchen, LGBTQ for youth, shelter, office space—no place for volunteers
MISSION	SOCIAL SPACE	Creates opportunities for congregants to interact not just after services but any time.
MISSION	SOCIAL SPACE	We need spaces where we can worship together – but also spaces where we can simply BE together.
MISSION	SOCIAL SPACE	You don't have meetings unless you have time to nosh together. This might be considered in how we design new space – especially in how we might design spaces in which we could have greater interaction with the community, not just among congregants.
MISSION	SPACE	As a liberal voice in our community, we are the beloved church in our community and to do that we need more space
MISSION	SPACE	Mission = social justice and community outreach. This necessitates larger meeting rooms and classroom space.
MISSION	SPACE	Mission to be hope for justice, tolerance- need space to be able to do that

MISSION	SPACE	Space holds us back on activities. Qigong in narthex is not adequate, esp. if it grows. Sanctuary would be great but have to move chairs. Love to see that continue in more “educational room” not used for the Sunday morning kind of spiritual service but more weekday—a room for broader use. On Sundays it would be an additional room for educational things.
MISSION	USES	With good design comes possibilities that spaces can be used for larger community purposes – kindermusik, other outside groups.
MISSION	VAN	Need to get a 12-passenger van for picking up WM youth and for working in community, to keep undeveloped space and to stay back from the road.
MISSION	W&M	Have a presence over by William and Mary
