

## What does "Mission" have to do with our campus?

**Next Sunday**, Reverend Ryu's sermon is about Building our Future, but not, perhaps, in the way you think. "Because our physical presence reflects our mission and purpose, let's make sure that we understand that purpose."

## How can I get my ideas heard?

**After the worship service**, sign up in the foyer for one of the Summer Visioning Circles. These circles will help us reflect on who we are and who we want to become as we think about facilities expansion. We have an excellent group of facilitators ready to lead each group through the 2-hour meeting and our note-takers and timekeepers are ready to record your group's work. Lunch will be provided for the Visioning Circles taking place on Sundays after the worship service. The questions are:

What is special or meaningful to you about the current WUU campus and facilities that you might want to see either preserved or enhanced?

In the next five years, what changes would you like to see that would help WUU function better?  
What will WUU look like-inside and out? How will this changed space enhance our congregational values and mission.

So what about children and youth? This is their future as well so children and youth are encouraged to participate with their parents. Additionally, the committee will schedule a special session for children to share their visions in their own circle. Details later.

**Why is 2016 such an important year?**

Our BOF committee has created a Tentative Timeline that our consultant, Bill Clontz, has praised. Take a look at the draft on our new posters in the foyer or in Fahs on Sunday that show, if we should decide to build, we could occupy the new space in 2016!
